Citizens Address

No citizens came before the Fiscal Court.

General Business

A. Presentation of the 2020 Beyond the Call of Duty Award to Steve Hensley.

Kim Webb, the Emergency Shelter Director, thanked the Fiscal Court for all of their work getting the Shelter into their forever home. She reviewed what they have accomplished with the help of the Court. They moved into their shelter on February 14, 2022, and they provide 68 beds for shelter service. They now have year round services. The moving of the Department of Transportation Licensing Department to the Kenton County building really helps the men return to work faster. The daytime navigation center at the Shelter has many community partners that are helping clients with employment. They have opened the Health Care Clinic as well. The University of Kentucky College of Medicine have opened a Compassionate Care for You Clinic, and are operating a free homeless clinic inside the facility one night a week, with the goal to be two nights a week. This is part of their curriculum. In the winter thru April 2nd, the shelter saw 450 adults, and provided nearly 5,500 bed nights. Since November 1st to May 30th, they are sitting at 8,600 bed nights for 600 adults.

Commissioner Sewell thanked Ms. Webb for the positive update. She asked how many men she estimates are being employed?

Ms. Webb answered that they currently have 18 work program beds, and they are all employed. They probably have half of the remaining beds currently employed. The lack of affordable housing is keeping people in the shelter.

Commissioner Draud stated that affordable housing keeps coming up as a major topic. Maybe someone needs to coordinate an effort to gather information.

Judge Knochelmann stated that he believes he will be able to come back to the Court with some recommendations in a bit. It is a bigger issue than one organization. One thing that is happening is that private businesses are starting to build housing on their sites.

Commissioner Draud stated that he believes that it should be a regional approach to the problem.

Ms. Webb asked that everyone recognize that chronic homelessness makes up less than 10% of the population. A majority of the people that they see are not ever going to be eligible for services. The vouchers that are available only go so far, as you need the landlord to accept the vouchers.

Kim Webb then presented Steve Hensley with the award for all of his help during the pandemic relocating clients for the shelter.

B. Presentation of the 2022 Ralph Drees Impact Award to the Kenton County Fiscal Court.

Ms. Webb then presented the award to the Kenton County Fiscal Court for the impact they have had on the mission of the Emergency Shelter.

C. Request approval to surplus real property located at 634 Scott Street, Covington, KY (Old Cold Shelter).

County Administrator Joe Shriver stated that this is to surplus the old Emergency Shelter of Northern Kentucky (ESNKY). It has to be declared that it has no purpose to the County anymore. They will come back to the Fiscal Court when it is time to dispose of the property.

Commissioner Draud made the motion for approval; seconded by Commissioner Nienaber. Judge Knochelmann called for a voice vote, and the motion passed unanimously 4-0.

D. Request a County exemption from Ad Valorem Taxation for the Grand Lodge of Kentucky and the residents of the Spring Hill Village.

Justin Knappick an attorney that represents the Grand Lodge and the Spring Hill Village retirement community stated that his clients are not the only individuals that are applying for this exemption.

County Attorney Stacy Tapke stated that essentially this piece has a long history. The City of Taylor Mill recently filed an action in the Supreme Court as to whether or not the residents of the Grand Lodge should be taxed for their leasehold interest. The property is held by a charity, The Grand Masons, and they themselves were subject to taxation because of the structure and part of the way the buy in structure was set up. The Court did find that the owners have a leasehold interest, and that is taxable. So, that was upheld. They are now coming to the Fiscal Court under a new statute that was enacted. It is an amendment that allows them to request to not be taxed.

The residents are 55 years or older at this facility, and they buy into these condominium facilities to live in. They got the law passed to allow them to ask for the exemption. The City of Taylor Mill has already heard their request, and they denied the request.

Commissioner Draud asked why they feel that it is legal to be able to exempt these people?

Mr. Knappick answered that the statute was amended to provide for this specific exemption for facilities that are tax exempt.

Commissioner Draud asked if they would do the same thing for the Knights of Columbus?

County Administrator Joe Shriver answered that it would have to be residential building.

Commissioner Nienaber asked if the St. Charles situation would be similar?

Ms. Tapke answered that she is not sure about St. Charles.

Commissioner Sewell asked how many people this will impact.

Mr. Knappick answered that there are 48 units, and all are occupied. He doesn't have the headcount. They are all 55 and older. The statute was specifically contemplated and amended to incorporate St. Charles. From what he understands, that was the specific intent of this amendment.

Commissioner Nienaber stated that he is wondering how many facilities like this there are in Kenton County. Are current homestead exemptions applicable to these lease agreements.

Ms. Tapke answered that she is not sure about leasehold interest. We are still ongoing about what the value is of that leasehold interest. That has not been resolved. She doesn't know if the leaseholders then have the availability of the homestead exemption. That is a question for the PVA.

Mr. Knappick stated that the number of facilities depends on what the generalization is that you are looking at, but he thinks there are five facilities that hold independent living for residents 55 or older in the County.

Judge Knochelmann stated that the City has denied this request. The Court can take action to exempt them or take no action. The biggest concern that has come out of this is ambulance service compensation.

Commissioner Draud asked if the residents live there for free?

Mr. Knappick stated that they pay an entrance fee.

Mr. Shriver asked if this is still active litigation?

Mr. Knappick answered that it is still active. It doesn't concern the ability to tax though. The issue now is the value of the leasehold.

Judge Knochelmann stated that his recommendation is to follow the City's lead on this.

Ms. Tapke stated that school boards would have to decide as well.

Commissioner Sewell asked if we know the total impact of this?

Ms. Tapke answered that there is no way of knowing, because no one knows the value.

The Fiscal Court decided not to take any action on this item.

E. Claims List dated June 10, 2022.

There were no questions on the Claims List.

B. Ordinance 226.04

An Ordinance amending Kenton County Ordinance No. 226.02 relating to the collection of per diem charges and processing/booking fees for prisoners of the Kenton County Detention Center

County Administrator Joe Shriver stated that Chris Nordloh had informed the Court that there was a recent Supreme Court decision effecting the collection of Jail fees. The legislature reacted to that decision, and gave some relief to jails by passing a new statute. This Ordinance adheres to both, and we want to enact that to collect some of the fees we hadn't been collecting.

C. Resolution No. 22-17

A Resolution of the Kenton County Fiscal Court sponsoring a proposed text amendment and authorizing the County Administrator to submit a text amendment application to the Kenton County Planning Commission.

Judge Knochelmann thanked Sharmili Reddy, Josh Wice and Christine Russell for all of their work. They want to be sure that all the work with Tri-Ed and PDS is thorough. This will come back to the Court after talking to experts in the area.

Commissioner Draud stated that he supports the concept, but a question that needs to be determined is that if he bought some land in the County and this gets passed, what legal redress would he have? It would stop people from making a profit on investment property.

Judge Knochelmann answered that it would have been good for this kind of work to be done about ten to twenty years ago. Now, we find ourselves in a market where some of those conditions exist. Ultimately, we want to get ahead of the future development and there are a multitude of steps we can take to make sure we are not only balancing future development, but the homeowners opportunities and rights and what is best for the County. There is no question that taking action on things that have been set in stone for a number of years is going to confuse a few people, but we want to move on this as soon as possible.

Commissioner Draud wanted to give a shout out to Sharmili Reddy, as he has always hear how wonderful she is and he had an occasion to need her services. She lived up to all of his expectations.

Judge Knochelmann stated that with the work of Tri-Ed, Christine Russell has made sure that the vision happens. Christine has put more than just time in for the community.

The Fiscal Court chose to table this Resolution.

D. Resolution No. 22-18

A Resolution of the Kenton County Fiscal Court consenting to the closure of a public way to include portions of Monterey Street and an unnamed alley.

County Administrator Joe Shriver stated that this will consolidate our parcels that are located next to St. Elizabeth. Nick Hendrix had worked with the Health District and the City, and all the City needs is this Resolution to close that right away. It benefits this parcel immensely.

Administrative Reporting

Emergency Communications

Ashley Hawks stated that they conducted two out in the field recruiting events in the last couple of weeks. They went to NKU, and spoke at a Criminal Justice Careers Class, as well as set up a booth at the Lakeside Park/Crestview Hills Police Department Car Show. It was interesting that as they haven't gotten any applicants, they have managed to turn it into a very positive public awareness event. There was a lot of interest at the booth at the Car Show. Numerous people

stopped by to ask questions and get information that were unaware of the services that they provide to the community. They have a couple more coming up soon. They will be at the Independence Fourth of July Festival.

Commissioner Draud asked Ms. Hawks to look into a call that one of his friends had placed to Dispatch.

Detention Center

Jailer Marc Fields congratulated Joe Shriver on his retirement. He then stated that the actions that the Fiscal Court has taken in the last few months has helped with recruiting and retaining employees. Since the last meeting, they have hired seven people, and there are four more in the pipeline. He thanked the Fiscal Court for their support.

Jailer Fields then stated that their work program for the cities is very successful. The cities appreciate this program. Their people are out in the cities and the County for 560 man-hours a week. This is saving tax payer money. There are six people in the county, one in Ft. Wright, four in Erlanger, three in Covington and sixteen working inside and around the jail. Also, they went to Erlanger's Touch a Truck last week, and they were a hit with the jail cell. It is good public relations. They have been invited to go to the First Baptist Church in Elsmere this Saturday.

Police Department

Chief Jones introduced Captain Chris Pittaluga to give a summary of the 100 year celebration of the Kenton County Police Department.

Captain Pittaluga stated that the Kenton County Police began as the Kenton County Patrol on June 15th, 1922. Our creation is a direct result of Dixie Highway being paved which resulted in an increase of motorized vehicles and of course speeding. The combination of vehicles, horses, trolleys, livestock, and few rules of the road inevitably led to an increase in collisions and frustrations. This created community pressure for the County and Sheriff to take action to address the Dixie corridor. This action included new traffic laws being adopted and the creation, with the assistance of Sheriff Thiel, of a County patrol to enforce speed limits on Dixie Highway. The County Patrol started with a chief patrol officer, two officers, two motorcycles and one cruiser.

Captain Pittaluga then stated that the Patrol very quickly began evolving and taking on more responsibilities. At first this was enforcing other traffic laws besides speeding. Later we began patrolling all county roads which led to locating and responding to crime calls as we often became the closest or only available law enforcement. By 1936 our evolution led to the discussion about whether the Sheriff or County Patrol should be handling general police duties in the County. Sheriff Vogt stated he lacked the resources to take on general police duties thereby opening the door for the County Patrol to become the County Police and not simply a highway patrol. The 1940s saw us working to help secure critical infrastructure during the war effort as well as take a large role in addressing illegal gambling. The 50s saw immense pressure from the public on the County to provide better support to the County Patrol as it lacked the resources to properly respond to crimes or patrol the county roadways. The agency was also primarily only working nights due to staffing shortages and had yet to provide 24 hour coverage. The 50s is also when we adopted the merit system in an effort to remove politics from policing and installed our first two way radios in the cruisers. The 1960s saw the addition of speed radar to our department as well as the opening of I 75. By the end of the 60s we were staffed up to 21 officers.

Captain Pittaluga then stated that the 1970s was a big decade with us moving to our current police headquarters, having our first full time detective, having our first female officer in 1974,

Vesta Lee Haynes, our first K9, and the precursor to the strike force which was ran by the County Police.

The 1980s saw us begin taking a more aggressive stance against both drunk driving and drug trafficking with crack being the new drug causing concern due to its low cost. The 1990s was another big decade which sees the adoption of our current class A uniforms, our first use of speed lasers instead of radar, our first cruiser cameras, and our first crime scene van to support the new evidence collection unit and the new accident reconstruction unit. We grew to 37 officers due to the large growth the area was seeing in the early 90s which remains our staffing to this day. The 2000s we added computers to cruisers for the first time. The k9 program also returned thanks to the efforts of Sgt Brett Benton. We also saw our staffing reduced to 31 officers. The 2010s is when we made our internet crimes against children unit a full time position, created our drone unit, and added body cameras. We also returned to our 37 officer staffing from a decade earlier. The 2020s saw us replace our evidence van with the new one and take over leadership of the countywide Fire Investigation Team. We are currently staffed at 37 officers plus one grant funded QRT officer. The Kenton County Police has done well to always adapt and evolve to ensure we are meeting the needs of our community and look forward to continuing this tradition of excellence for the next one hundred years.

Emergency Management

Steve Hensley congratulated Joe Shriver on his retirement. He then stated that the Emergency Operations Center (EOC) training exercise was well attended, between the two dates. On June 30th, they will have a similar training session for elected and appointed officials explaining their roles in the EOC during a disaster. Also, a few weeks ago approximately 30 regional first responders attended an advanced IMT training to make us more prepared for future events.

Mr. Hensley then stated that today they were invited to participate in a walkthrough of the Interplastics facility. On July 6th, they have a meeting scheduled with them and the cities of Fort Wright and Covington to learn about/discuss their operations. Lastly, they would like to thank the DUKE Energy Foundation for their generous \$5,000 donation to support the emergency preparedness efforts.
